Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 25-34, drawn to translating the internal script, classified in class 717, subclass 136.
 - II. Claims 35-37, drawn to determining an internal format and mapping the internal format, classified in class 715, subclass 516, 522-524.

The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as translating the internal script. Invention II has separate utility such as determining an internal format. Invention III has separate utility such as acquiring a smart card definition. Invention IV has separate utility such as plurality of fields contain information are stored on a smart card. See MPEP § 806.05(d).

Art Unit: 3621

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention to be examined** even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
